## About LED Global

LED Global as a brand launched in 2015 in Ireland. We supply a range of LED Lighting products that are suitable for the Agricultural, Automotive, Construction Equipment, as well as Forestry & Mining Equipment markets.

Our brand and product range has grown substantially since 2015, as has our customer base with us now exporting to the UK and many European countries.

2023 has brought a new chapter to our brand with the opening of our new offices and distribution centre in Frankfurt, Germany. This ensures the distribution of orders to our mainland European customers is much faster and more cost effective. We also have our full sales and customer service team providing assistance to our customers from our base in Frankfurt.

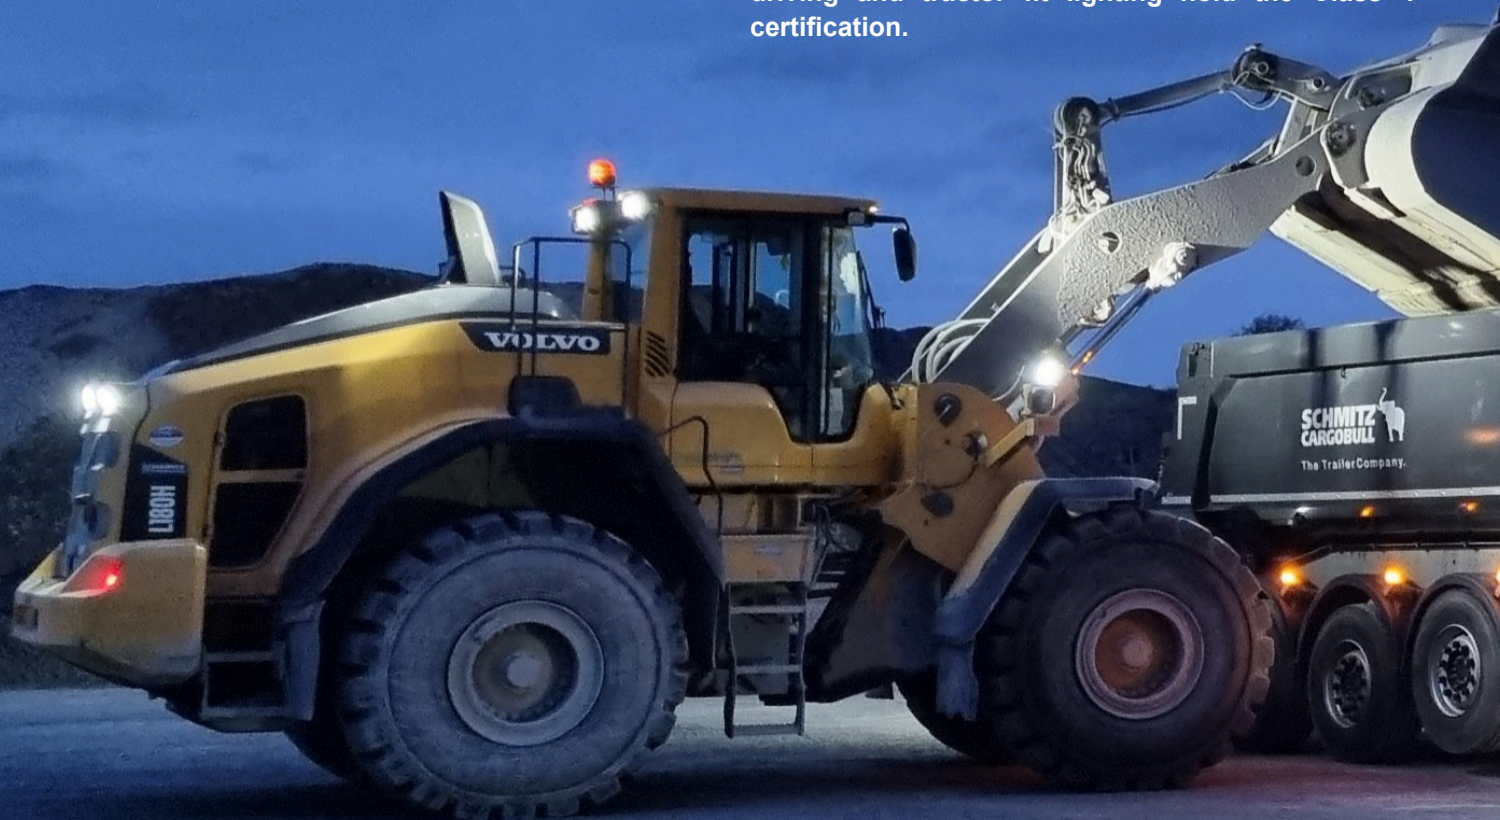

## Our Products

LED Global supplies a comprehensive range of lighting products, as well as safety products to the Agriculture, Automotive, Construction Equipment, Forestry & Mining markets.

The main categories of products we supply are: Driving & Work Lighting, Warning Lighting, Combination Tail Lighting & Marker Lighting, Interior Vehicle Lighting & Camera Rear View Systems.

Our biggest product range is the Tractor Fit LED lighting, suitable for the upgrade of lighting on all makes and models of agricultural vehicle. These lights are a premium level product and hold the highest quality certs such as EMC CISPR 25 and IP68 ratings.

All products are produced to the highest of quality standards and design. We ensure that all our products are certified with ECE Approvals such as R65 on warning lighting and R112 for driving lighting. We will only produce items that hold a minimum of EMC CISPR 25 Class 3, but all of our driving and tractor fit lighting hold the Class 4 certification.

## Why Choose Us

What makes LED Global different? We offer not only a wide range of quality products to suit the relevant industries, but also have many years of experience in product development in these markets.

For example, we have built and provide an extensive database of OEM cross reference numbers for our tractor fit lighting, making it easier to choose the correct item for your vehicle. We have also produced the product with the same plug in connectors as the existing vehicle, making the fitting of the products easier with a plug and play system. This limits the need for qualified technicians to join wires etc which is time saving and cost effective for our customers.

We are constantly moving forward with new product development as technology advances. We are developing more and more products with brighter lit LEDs , while using less power (Wattage).

In recent times, for example, we have seen the emergence of LED warning flashing built into driving lights and bars. This is adding more value for money to the consumer, as well as an enhanced driving experience with added safety features.

Not only are we offering all of this, but also a premium product, with a robust, durable and attractive design which will work in the harshest of environments.

## The Production Process

There is a comprehensive process to developing our products. Some of the steps included are:

Step 1 - Product designing by engineers using the latest software technology.

Step 2 - The production of moldings and samples in order to undergo rigorous testing procedures.

Step 3 - The testing of these samples on vehicles and machinery in all types of conditions and climates.

Step 4 - The mass production, quality control and certification, such as ECE, CE, IP Ratings.

Step 5 - The branding and shipment of the products to our distribution centres for selling to our customers and onto the consumer.

These processes mean that we ensure that quality and performance is maintained throughout each step. The end result is a premium, high class product, meeting and exceeding market standards.

# Driving Lights

**E** IP68

EMC CISPR 25 Class 4

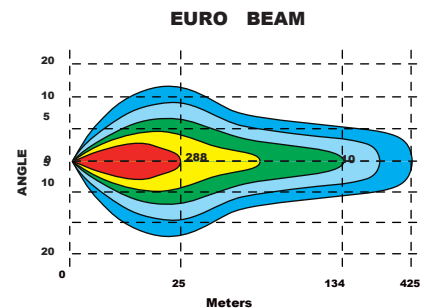

**Part Number: LG877**

**120 Watt 9" LED Driving Light with Dual Colour Position & Amber Warning Strobe**

Specifications:

- E marked (E8, ref. 37,5), ECE R112 / R10 / R7 (white position light)
- EMC secured (does not disturb the radio)
- With position light (4 LEDs) yellow-orange or xenon white (connect the colour you want)
- 12000 lumens (theoretical), 9600 lumens (actual)
- TIR Optical system (Total Inner Reflection)
- 120 W (12 x 10 W Cree XM-L2 LED)
- 4 pcs LED for strobe light
- Nominal power 92,4 W
- IP68 (water/dust proof)
- 6 pole DT connector (6-pin adapter included)
- Electronic heat management
- Voltage 9-36 V
- Load 7,7 A @ 12 V and 3,6 A @ 24 V
- Width: 218 mm , Height: 234,5 mm (incl bracket) ,Depth: 68,5 mm
- Weight: 1,9 kg
- Cable length: 650 mm

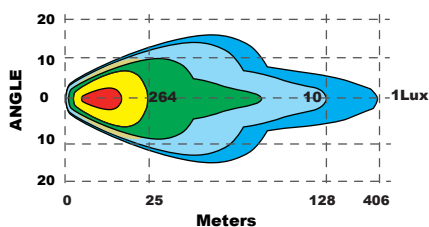

## Part Number: LG876

### 60 Watt 7" LED Driving Light with Dual Colour Position Light

- 9 - 36 Volts
- 60 Watt
- 6000 Lumen
- 60 x 3 Watt LED
- White or Amber Position Light
- Size: 180 x 190 x 67.5mm
- Die Cast Aluminium Alloy Housing
- EMC Protected Class 5
- Unbreakable PC Lens
- ECE R10, ECE R149 (R112) ECE R148 (ECE R7)

#### COMBO BEAM

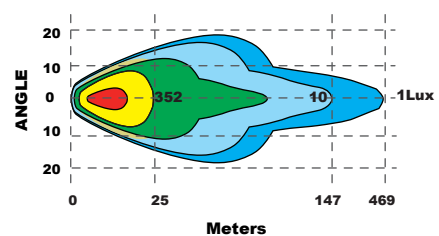

## Part Number: LG930

### 120 Watt 9" LED Driving Light with Dual Colour Position Light

- 9 - 36 Volts
- 120 Watt
- 12000 Lumen
- 4 x 20 Watt & 4 x 10 Watt LEDs
- White or Amber Position Light
- Size: 218 x 233 x 84mm
- Die Cast Aluminium Alloy Housing
- EMC Protected Class 5
- Unbreakable PC Lens
- ECE R10, ECE R149 (R112) ECE R148 (ECE R7)

#### COMBO BEAM

**E** IP68

EMC CISPR 25 Class 4

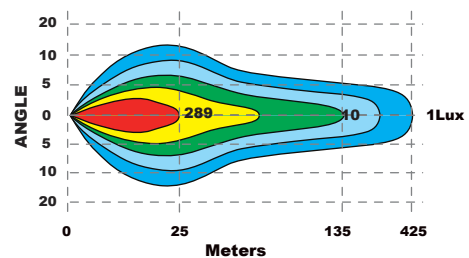

**Part Number: LG933**

**120 Watt LED Driving Light with Dual Colour Position & Amber Warning Strobe**

### Specifications:

- E marked (E8, ref. 37,5), ECE R112 / R10 / R7 (white position light)
- EMC secured (does not disturb the radio)
- With position light , yellow-orange or xenon white (connect the colour you want)
- 10000 lumens (theoretical), 9600 lumens (actual)
- TIR Optical system (Total Inner Reflection)
- 120 W (4 x 25 W Cree XM-L2 LED) (2 x 10 Watt Position Lights)
- 4 pcs LED for strobe light
- Nominal power 92,4 W
- IP68 (water/dust proof)
- 6 pole DT connector (6-pin adapter included)
- Electronic heat management
- Voltage 9-36 V
- Load 7,7 A @ 12 V and 3,6 A @ 24 V
- Width: 247 mm , Height: 176 mm (incl bracket) ,Depth: 92 mm
- Cable length: 650 mm

### DRIVING BEAM

**E IP68**  
EMC CISPR 25 Class 4

- DC 9 - 36 Volts
- Over/Under Voltage Protection
- White or Amber Position Light
- ECE R 10, ECE R149, ECE R148
- Size: 244 x 138 x 110mm
- EMC Cispr 25 Class 4
- Complies with IP68
- Main Beam: 60 Watt
- Position Light: 3.5 Watt

**Part Number: LG888**

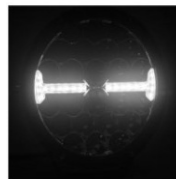

**60 Watt LED Jumbo Driving Light with Dual Colour Position Light**

**Part Number: LG827**

**E IP68**  
EMC CISPR 25 Class 4

**100 Watt LED Driving Light with White Position Light & Amber Strobe**

- DC 9 - 36 Volts
- Over/Under Voltage Protection
- White Position Light
- Amber Strobe Function
- 10920 Lumen
- ECE R 10, ECE R149, ECE R148, R65
- Size: 189.5 x 71.2mm
- EMC Cispr 25 Class 4
- Complies with IP68
- Main Beam: 100 Watt
- Position Light: 3.5 Watt

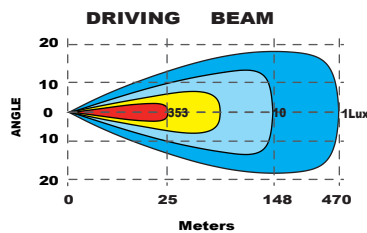

**White Position Light**

**Amber Warning Light**

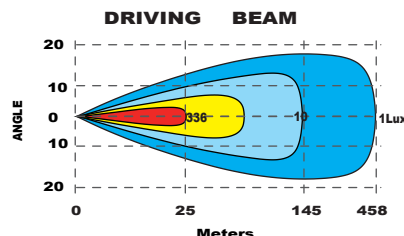

## Part Number: LG894

### 150 Watt 20" LED Driving Bar with White Position Light & Amber Strobe

- DC 9 - 36 Volts
- Over/Under Voltage Protection
- Position Light - White
- Amber Strobe Function
- ECE R10, ECE R112, ECE R7, R65
- Size: 514 x 54 x 61.5mm
- EMC Cispr 25 Class 4
- Complies with IP68
- Aluminium Heatsink & casing
- Main Beam: 150 Watt
- Position Light: 3.5 Watt

**Choice of White or Amber Position Light**

## Part Number: LG828

### 96 Watt 20" LED Driving Bar with Dual Colour Position Light

- DC 9 - 36 Volts
- Over/Under Voltage Protection
- Position Light - White or Amber
- ECE R10, ECE R112, ECE R7
- Size: 520 x 40.5 x 52.5mm
- EMC Cispr 25 Class 4
- 522m at 1 lux
- Complies with IP68
- Aluminium Heatsink & casing
- Main Beam: 96 Watt
- Position Light: 3 Watt

**Part Number: LG826**

**Part Number: LG825**

**Part Number: LG848**

**E IP68**  
EMC CISPR 25 Class 4

**LG940 - License Plate Bracket for mounting Light Bars**

Suitable for Part Numbers: LG825 , LG828 , LG894, LG951

**Part Number: LG826**

**180 Watt 32" LED Driving Bar with White Position Light**

- 9 - 30 Volts
- 180 Watt
- 18000 Lumen
- 60 x 3 Watt LED
- White Position Light
- Size: 795 x 83.5 x 80mm
- Aluminium Alloy Housing
- EMC
- Unbreakable PC Lens
- ECE R10, ECE R149 (R112) ECE R148 (ECE R7)

**Part Number: LG825**

**120 Watt 22" LED Driving Bar with White Position Light**

- 9 - 30 Volts
- 120 Watt
- 12000 Lumen
- 40 x 3 Watt LED
- White Position Light
- Size: 542 x 83.5 x 80mm
- Aluminium Alloy Housing
- EMC
- Unbreakable PC Lens
- ECE R10, ECE R149 (R112) ECE R148 (ECE R7)

**Part Number: LG848**

**60 Watt 12" LED Driving Bar with White Position Light**

- 9 - 30 Volts
- 60 Watt
- 6000 Lumen
- 20 x 3 Watt LED
- White Position Light
- Size: 293 x 83.5 x 80mm
- Aluminium Alloy Housing
- EMC
- Unbreakable PC Lens
- ECE R10, ECE R149 (R112) ECE R148 (ECE R7)

## Super Slim Driving Bar Series

The new series of LED Driving Bars incorporate reflector technology in its driving performance, but also in its dual colour position lighting. It is produced with a sleek aerodynamic housing which limits drag while driving. It is also fitted with a high quality breather filter to limit any build up of condensation within the inside of the housing.

The newest and coolest technology feature of this series is the dual beam function. These bars can be used and have a separate cable for each of the following: driving beam which is ECE road legal certified. It also has an off road feature which at the push of a button will give a brighter and longer distance beam for off road use.

### Features & Benefits

- 2 Colour Position Light ( White & Amber)
- 2 Function Driving & Off Road Beam
- Super Slim Housing
- Reflector Beam Technology

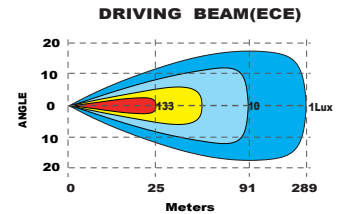

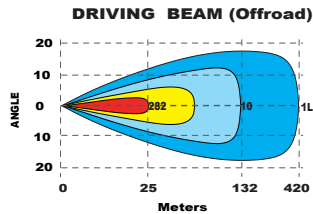

## Part Number: LG950

### 54 Watt Ultra Slim LED Driving Bar with Dual colour Park Light

#### Specifications

- 54 Watt
- 4900 Lumen
- 9 x 6 Watt & 9 x 0.5 Watt LED
- Size: 291 x 33 x 70mm

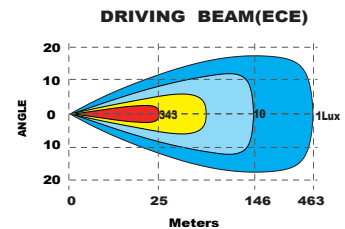

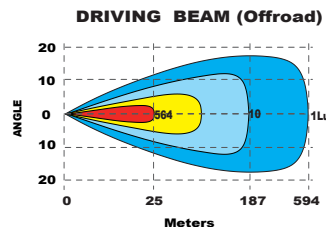

## Part Number: LG951

### 108 Watt Ultra Slim LED Driving Bar with Dual colour Park Light

#### Specifications

- 108 Watt
- 9600 Lumen
- 18 x 6 Watt & 18 x 0.5 Watt LED
- Size: 534 x 33 x 70mm

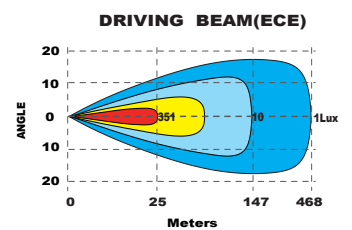

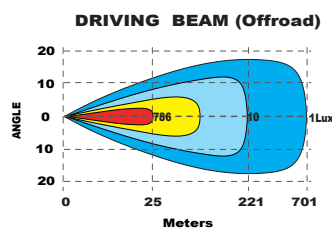

## Part Number: LG952

### 162 Watt Ultra Slim LED Driving Bar with Dual colour Park Light

#### Specifications

- 162 Watt
- 14600 Lumen
- 27 x 6 Watt & 27 x 0.5 Watt LED
- Size: 777 x 33 x 70mm

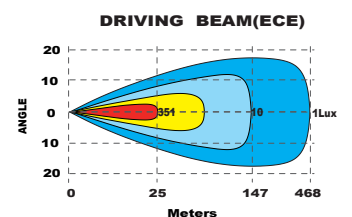

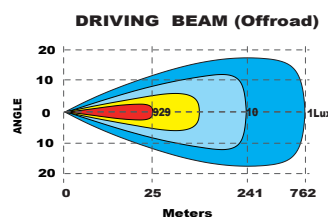

## Part Number: LG953

### 216 Watt Ultra Slim LED Driving Bar with Dual colour Park Light

#### Specifications

- 216 Watt
- 19400 Lumen
- 36 x 6 Watt & 36 x 0.5 Watt LED
- Size: 1020 x 33 x 70mm

# LED Headlights
